

## Type FBT-M Bin Tipper

The FBT-M Forward Bin Tipper allows for 180 degree rotation of almost any bin. The bin tipper is manufactured to suit the dimensions as required by the customer. The bin tipper is operated without the forklift operator leaving the drivers seat. A safety chain prevents the unit from disengagement from the fork arms. Bins can be safely transported about the work site and emptied quickly where required. Available in either painted or galvanised finish.

- Safe Working Load: 1500 kg
- Fork Pocket Size: 165 mm x 65 mm
- Fork Pocket Centres: 635 mm

*(All other specifications determined by design)*
