

Type FBT-45 Bin Tipper

A wide range of floor mounted hydraulic bin tippers are available to suit various applications. Custom made to suit, these tippers offer the ability to discharge product into processing and production machinery and plant lines from bottom discharge bins. Please contact East West Engineering to discuss your particular requirement.

Type FBT-CB7-130 Bin Tipper

With a 130 degree rotation, this powerful tipper is perfectly suited to open top bins and crates, and can be custom built to suit most applications. Available in galvanised or Stainless Steel.
